**PWI Earns PMA-Approval for LED Step Light
For Citations: Bravo 550, II S550, 650, Excel 560XL, V 560**

October 17, 2024 – Wichita, Kansas, USA – PWI has brought the long life/low power draw efficiency of LEDs to the Citation jet steps. This new LED step light replaces the original incandescent step lights in the door of the Citation. No aircraft mods are required – the single PWI LED part number simply screws into the steps using the original fastener holes.

The door-mounted step light is designed to resist cabin ingress and egress wear-and-tear. This is a new LED step light design using impact-resistant polycarbonate lens material to deliver long term durability. The design also offers greater liquid and contaminant resistance to common elements as deicing fluid, rain, snow and mud.

"PWI offers PMA-approved external and internal LED lighting for Citations and this new LED step light puts a nice touch on the door steps – one of the first things you notice when entering the cabin," said Robi Lorik, PWI President/CEO. "It adds a level of safety and convenience that passengers appreciate before they are seated," Lorik stated.

The PWI LED step light replaces part number 6900163-000 and Textron part number 1021LIGHT. It reuses the original aircraft lighting wiring as well as the original mounting holes, and runs on the aircraft-supplied 28 volts.

Citation Models Included in PMA approval

Citation II, 550 Bravo, S550 II/SP, V 560, Excel 560XL, 650: Citation III, VI, VII

PWI Part Number: 6910163-003

All PMA-approved LED cabin lighting systems have a 3-year PWI warranty.

PWI has been an OEM vendor of fluorescent cabin lights for business jets such as the Dassault Falcon, Gulfstream, Cessna Citation, Challenger, Learjets and King Air turboprops for decades.

PWI FAA-approved LED aircraft lighting upgrades can be purchased direct or through our

[authorized dealer and distribution network](#). Contact PWI at +1-316-942-2811 or sales@pwi-e.com.
