PWI FURTHER EXPANDS INTO TEXAS BY SIGNING JAG AVIATION

PWI Signs JAG Aviation as Authorized Installation Center

June 7, 2019 Wichita, KS: PWI's new partnership with JAG Aviation out of McGregor, Texas increases the PWI LED product line reach further into the Texas market. PWI is looking forward to this joint venture that will help accelerate growth in this area.

JAG Aviation is a Fixed Based Operator (FBO) that has been in business over 18 years. They offer aircraft maintenance, avionics, and fuel for pilots for privately owned piston and turbine aircraft. In addition customers may take advantage of their Detailing, Storage, PSI Testing, Ground Transportation, Office Rental and Catering Services. With such a wide range of services, JAG Aviation is definitely a one stop shop for customers with turbine and piston aircraft. They are an authorized dealer for Garmin, Avidyne, Aspen Avionics, BendixKing, L3 Technologies as well as other trusted industry leaders. As part of the new partnership, JAG Aviation will now carry and install the entire line of PWI LED lighting products.

JAG Aviation is known for their expertise and quality work. All maintenance performed by JAG Aviation is completed by Federal Aviation Administration (FAA) licensed mechanics and repairmen. JAG Aviation's main goal is to put their customers first. They understand the importance of reducing maintenance downtime for all their customers. "I enjoy meeting and working with Gary and his team at JAG Aviation. They are highly knowledgeable, and they care about their work and it shows," said Eric Dahlinger, PWI Outside Salesperson. PWI is excited to partner with a company that has such a broad range of services and is focused on quality repairs as well as meeting the needs of their customers.

Since being established, PWI has grown from coil winding to a diverse range of aircraft lighting products and more. PWI manufactures several interior lights for Beechcraft King Air aircraft and has in-house ability to design, engineer and manufacture all types of electrical assemblies, electronics contract manufacturing, magnetometers and customized LED lighting solutions.
