AMERICAN AVIATION PARTNERS WITH PWI

American Aviation Services Becomes an Authorized Installation Center

May 20, 2019 Wichita, KS: American Aviation is now an official Authorized Installation Center for all of PWI's LED Lighting products. American Aviation is a family owned and operated company located in Brooksville, Florida dedicated to exceeding customer expectations.

American Aviation has provided quality service to their customers since 1979. Their expertise includes light to mid-sized jets, turboprops and single-engine aircraft. American Aviation started out as a flight school and has expanded into one of Southeast's premier FAA Certified Repair Stations and Cessna Service Centers. As an FAA Certified Repair Station, they provide services for a wide range of aircraft such as Learjet, Citation jets, Westwind, King Air, Cheyenne, Caravan, Cessna, Hawker, Beechcraft and Piper.

American Aviation prides themselves on being a "one-stop-shop" with services including aircraft sales, avionics, FBO services, flight school, interiors, maintenance, paint and parts. With so many services available, they are able to get the customer up and running with minimal downtime. PWI is excited to work with a company that is dedicated to delivering "world-class customized service" and takes pride in exceptional workmanship.

Since being established, PWI has grown from coil winding to a diverse range of aircraft lighting products and more. PWI manufactures several interior lights for Beechcraft King Air aircraft and has in-house ability to design, engineer and manufacture all types of electrical assemblies, electronics contract manufacturing, magnetometers and customized LED lighting solutions.

For more information, please feel free to contact PWI at +1-316-942-2811 or contact the Marketing Strategist, Taylor Slavens, at taylor@pwi-e.com. You can also visit our website at pwi-e.com.
