

LED READING LIGHTS

ADVANTAGES:

- 33,000 Hour Life
- Low Operating Temperature
- Greater than 90% Power Savings
- Approved in More than 50 Different Aircraft
- No Modification Required
- Global Dealers

LED LIGHTING INTERIOR UPGRADE

PWI's LED reading lights provide 33,000 hours of service, so our LEDs might be the last ones your aircraft will ever need. Our LED lights are also whiter and more efficient than incandescent bulbs.

PWI LEDs operate on significantly less power and are more cost-efficient over the life of the aircraft. PWI LED reading lights are PMA-approved in a variety of aircraft including piston, turboprops, and jets. Install PWI LEDs and never think about reading lights again.
