LED LIGHTING
EXTERIOR UPGRADE

Since our LED Ice Light was PMA approved, customers have asked for a new Ice Light Window. Even our super-long life LED Ice Light can be hampered by an old, crusty, yellow, crazed window.

The PWI Ice Light Window an exact replacement and fits without modification - the way you expect.

Is the Ice Light Window only about weather? No. It's also about safety. A new LED Ice Light and a new window ensures you are seen during taxi, takeoff and landing. And, when you need it for ice detection, of course it's ideal.

Now whether you upgrade your Ice Light with our LED, or you just need a new window, PWI has the solution for your King Air and 1900. Again.
