

LEARJET 35 & 36 LED INTERIOR LIGHTS

ADVANTAGES:

- Direct Plug-and-Play LED System
- PMA Approved
- Learjet 35/35A and 36/36A
- 100,000 Hour LED Life
- No Aircraft Mods
- No Maintenance
- 3-Year Warranty

LED LIGHTING INTERIOR UPGRADE

Create a refreshed and modern cabin appearance with PWI LED lighting systems.

Replace all original fluorescent lights in the Learjet cabin, galley and lav areas. Delivered as a pre-measured, plug-and-play system that uses the original aircraft wiring.

Easier installation

Rid your Learjet of old-school fluorescent light high voltage hum, buzz and flicker.

You don't need those high voltage power inverters with LEDs.

Get the modern LED look without the expense. Add PWI LED reading lights – also PMA approved for Learjets. Install PWI LEDs during the next aircraft inspection.

Put our more than 50 years of aviation lighting experience to work in your Learjet 35 and 36.

CERTIFICATIONS:

PMA - #PQ4159CE; #00
